Educational Background

BS Information Technology

2021- 2025

- University of Science and Technology of Southern Philippines

Senior High School – STEM Strand

2019-2021

- Central Mindanao University

Projects

- **Job Request System:** Built a scalable Django/React system with real-time updates, role-based access, and intuitive UI, improving workflow efficiency by 40% and reducing request resolution time by 60%.
- **Employee Survey Website:** Developed web-based feedback and reporting tool, achieving a 75% employee response rate and identifying key areas that led to a 30% improvement in team satisfaction.
- **Cashflow Manager:** Created a transaction tracker for financial reports, increasing budgeting accuracy by 25% and reducing manual reporting time by 40%.
- **BrightWayPH:** Designed and deployed a WordPress CMS site for a life insurance company, increasing online inquiries by 35% and doubling applicant engagement within 5 months.
- **Guest Wi-Fi Setup:** Installed and secured private network access (APEX Gym), resulting in 100% uptime, a 50% reduction in unauthorized access attempts, and improved client satisfaction with faster, reliable Wi-Fi.
